

ONGAVA LODGE

ETOSHA

Classic Wilderness Camp

Ongava Game Reserve, originally four cattle ranches, now abounds with game and serves as a vital buffer zone between Etosha National Park and farming communities further south. In this reserve, the well-established Ongava Lodge offers luxury accommodation in twelve thatched en-suite chalets. There are impressive views from the main lounge, pub and dining areas, as they are situated close to the top of the foothills of the Ondundozonanandana Range.

Guests can track rhino on foot or go on a game drive to view elephant, lion, black rhino, springbok, gemsbok and hartebeest. Leopard and cheetah also occur in this area. Birdlife is outstanding with White-tailed Shrike, Short-toed Rock Thrush, Hartlaub's Francolin and raptors in abundance. Consider enhancing your Etosha journey with a private guide and game drive vehicle, both of which can be arranged with adequate advance notice.
