

# ONGAVA TENTED CAMP

## ETOSHA

### Vintage Wilderness Camp

Ongava Tented Camp is Etosha's best kept secret, tucked into a hidden valley at the foot of an anonymous hill in the privately owned 30 000-ha Ongava Game Reserve bordering the Etosha National Park. Activities at this comfortable camp typically begin in the main area with its tranquil bar and swimming pool fronting onto a much-frequented waterhole. The camp accommodates up to 18 exclusive guests in nine large Meru tents, all with en-suite facilities, open air showers and private verandas. The family unit sleeps four.

This complete Etosha experience in private luxury offers activities such as guided walks, bird watching, hides, night drives, great company and great food. A special encounter is white rhino tracking – Ongava holds one of the largest rhino custodianships for the Namibian government; these have been set up in safe havens throughout the country in the hopes of breeding rhino up to more sustainable numbers and reintroducing them into areas where they previously flourished. An original African wildlife experience!
